

**Basic Septic System Installers Workshop
April 12, Houlton Town Office**

A Basic Septic System Installers workshop will be held Thursday, April 12 from 8am to 4:00pm at the Houlton Town Office's conference room on the 2nd floor, Water St., Houlton. The workshop is designed for contractors, local plumbing inspectors (LPI's) and site evaluators. This training qualifies for continuing education credits for site evaluators, LPI's, inspectors, and contractors (for both septic system installation and soil erosion and sediment control). Former state site evaluator Glenn Angell and state soil scientist Dave Rocque will lead the workshop and together have many years of experience to share as licensed site evaluators. Topics will cover interchangeability of disposal field devices, inspections, well contamination case studies, movement of groundwater, back filling, and more.

Pre-registration is required along with a registration fee of \$20 per person which includes educational materials, coffee and snacks. Lunch will be on your own. Please contact the Southern Aroostook Soil and Water Conservation District if you require special accommodations, for further information or to register at angela.wotton@me.nacdnet.net or 254-4126. You may also complete the following form and mail to:
