

NO-TILL SEEDER RENTAL POLICY

The Central Aroostook SWCD 's No-Till Seeder is available for rent by farmers throughout Aroostook County. The seeder is designed for planting a variety of grasses and small grains, and is typically used for sowing cover crops, seeding waterways, etc. The seeder rental is on a first-come-first-served basis. The Southern Aroostook and St. John Valley SWCD will be coordinating with CASWCD to ensure that all interested parties have an opportunity to use the seeder.

GUIDELINES FOR USE

Please! NO FERTILIZER in the Seeder. The chemicals in the fertilizer destroy the composite mechanisms, requiring extensive repairs.

The Seeder has a pin/clevis hitch (no ball). You will need a heavy duty automotive bumper or tractor to tow the Seeder.

Extra hydraulic fittings are included to allow use with various tractors. An operators manual is also included.

Before you return the Seeder, please grease pivots and let us know if there are any broken parts. **PLEASE CHECK ALL BOLTS ON FRONT COULTERS AS THEY TEND TO LOOSEN. THANK YOU!**

RENTAL FEES

0 – 10 Acres: \$13.00 per acre

10 + Acres: \$10.00 per acre
